

## APPRENTICESHIP

## Metal Technology Specialist (all genders)

### Specialisation in Machining Technology

Training as a **Metal Technology Specialist**, specialising in machining technology, is ideal if you enjoy metalworking and have good spatial awareness. At Obeck, you will be trained as an expert on the CNC lathe and learn how to produce components with micrometre precision. If you perform well, you will even have the opportunity to graduate as a cutting machine operator by extending your training for a further 18 months.
